The Magellan eXplorist 110 GPS receiver is ready to use right out-of-the-box with a brilliant, 2.2-inch color screen with rich graphics and a simple user interface all packed into a rugged and waterproof (IPX-7) device. The 110 is powered by two AA batteries for up to 18 hours so you can explore all day. A highly sensitive SiRFstarIII™ GPS chipset provides 3–5 meter accuracy. With its easy-to-use interface, the eXplorist 110 is great for basic navigation. The product comes with essential outdoor GPS features, such as waypoint creation, preloaded Magellan World Edition Map, active tracking and track summary.
